

Tips on Slide Presentations

- Use video if possible
- Use Color effectively
- Be careful not to let the background interfere with letter clarity
- Speak in an interesting voice and loud enough to be heard
- Be “bigger than life” in front of a crowd.
- Use 16 font or larger.
- Paste over small fonts on copied figure coordinates with larger fonts.
- Start with a global perspective and move to the specific work.
- Avoid slides that are “too” busy.
- Tell a coherent story.
- Have words prepared to transition from one slide to the next.
